Software engineer generalist with a track record of producing clean code, eliminating technical debt, and digging into complicated problems spanning multiple systems. Seeking a challenging technical track position with opportunities to learn new technologies and tools.

Professional Experience

X by 2

Farmington Hills MI

2015 October - 2017 August

Software Engineering Consultant

- · Client engagement: Claims System for Fortune 500 P&C insurer
- Reengineered Java EE/Apache Camel/Spring document management integration code for cleaner data model and better fault tolerance. This led to fewer errored documents, improved performance, and easier troubleshooting.
- Configured COTS application front end with vanilla JavaScript and Gosu code, resulting in document viewing performance improvements for end users.
- · Led design review, code review, and data model discussions.
- Troubleshooted integration errors, working closely with external vendors and other departments in the client organisation. Performed data fixes and code hotfixes in the production environment.
- · Internal consulting project: Applicant Tracking / HR System
- Worked with X by 2 principals to determine requirements for a cloud based applicant tracking and HR administration system to replace various home-grown applications.
- · Researched and contacted potential vendors for requirements analysis and demos with stakeholders.

Kettering University

Flint MI

Department of Computer Science: Research Assistant

2013 April – 2015 June

 Configured OpenFlow software defined networking switches for Kettering's Laboratory for Advanced Network Applications and developed and tested OpenFlow controller applications.

New EagleSoftware Engineering Co-op

Ann Arbor MI 2010 October – 2012 June

- Created HMI applications for embedded display hardware and PC applications to calibrate electronic control modules.
- · Worked with product managers to evaluate products being considered for distribution.
