Software engineer generalist with a track record of producing clean code, eliminating technical debt, and digging into complicated problems spanning multiple systems. Seeking a challenging technical track position with opportunities to learn new technologies and tools.

Professional Experience

X by 2

Farmington Hills MI

2015 October - 2017 August

- Software Engineering Consultant
 Client engagement: Claims System for Fortune 500 P&C insurer
 - Reengineered Java EE/Apache Camel/Spring document management integration code for cleaner data model and better fault tolerance. This led to fewer errored documents, improved performance, and easier troubleshooting.
 - Configured COTS application front end with vanilla JavaScript and Gosu code, resulting in document viewing performance improvements for end users.
 - Led design review, code review, and data model discussions.
 - Troubleshooted integration errors, working closely with external vendors and other departments in the client organisation. Performed data fixes and code hotfixes in the production environment.
 - Internal consulting project: Applicant Tracking / HR System
 - Worked with X by 2 principals to determine requirements for a cloud based applicant tracking and HR administration system to replace various home-grown applications.
 - Researched and contacted potential vendors for requirements analysis and demos with stakeholders.

Kettering University

Flint MI

Department of Computer Science: Research Assistant

2013 April - 2015 June

 Configured OpenFlow software defined networking switches for Kettering's Laboratory for Advanced Network Applications and developed and tested OpenFlow controller applications.

Kettering University

Flint MI

Department of Customer Service & Programs: Student Caller

2012 July - 2015 September

 Invited prospective students to Kettering open house events and followed up with postcards and phone calls after those events.

Livio

Ferndale MI

Software Engineering Co-op

2012 September – 2012 December

- Developed iOS apps and backend network code for sales demonstrations.

New Eagle

Ann Arbor MI

Software Engineering Co-op

2010 October - 2012 June

- Created HMI applications for embedded display hardware and PC applications to calibrate electronic control modules.
- Worked with product managers to evaluate products being considered for distribution.

Education

Kettering University

Flint MI

Coursework completed for dual degree BS Computer Science / BS Computer Engineering

2010 - 2015

- Systems and Data Security concentration
- International Studies minor
